# **NewsCUT - News Editing Client**

## **Editing Captions**

2025/01/18 16:41

To edit closed captions in News Cut, create a new project with subtitle support. In the Captions Track field of the dialogue window, specify the number of subtitle tracks.

🛐 New project		?	$\times$
Project parameters -			
Video mode:	1080i50 - 1920x1080, 25.00, TFF		
Format Conversion:	None		
Use AFD			
Video tracks:			•
Audio tracks:			•
Audio channels:	2		•
Caption tracks:	1		•
Caption tracks:	Any		
	Cancel		

Create an empty subtitle clip on a project timeline. It is preferable for duration of the created subtitle clip equals duration of the current video clip. Right click the subtitle track and select Add Empty Clip. Thus, a clip containing subtitles has been added to the project: it can be moved and edited along with video clips.

Working with subtitles requires using the Caption Track window and subtitle tracks on the timeline. The Caption Track window allows viewing all subtitles of the selected track. The subtitle track selected on the timeline is highlighted with the "CC" icon.

To add a subtitle, place the cursor to the needed position on the Timeline, right click in the Caption Track window and select New Caption.

		- <b>Link</b> -
8 ×	Caption Track 1 ()	5 ×
V 1	Timecode Caption	
00 00:00:25:00 00:00:	00:00:01:08 Hey, Bohlo, let me do a picture of us?! 00:00:06:20 Ok, nice! Look at the camera!	
	00:00:12:08 Hey, this what become To association ok with the operation of the second s	ne camera??

Clip 0:1		

The right click menu in the Media Browser window:

Item	Description
New Caption	Create a new subtitle at the cursor position on the timeline. If the cursor position is out of the subtitle clip, the error message will be displayed.
	Unabled to add caption, no caption cup for current timecode
Move To Current Frame	Move the selected subtitle to the current position of the cursor on the timeline.
Edit Caption	Edit the selected subtile.
Delete Caption	Delete the selected subtile

Set the duration of displaying and the subtitle text in the opened window. Added subtitles will be displayed in the Caption Track window and on the Timeline.

Visual viewing subtitles is implemented in the Master window. Subtitle displaying settings are implemented in the menu: Newscut→Edit→Configure→Open Captions Preview.

You can add an additional subtitle track to the timeline via the menu: Newscut $\rightarrow$ Tracks $\rightarrow$ Add Caption Track...

Newscut - [C:/Users/serge/Desktop/newscut\_caption\_editing/captions.ncp] \* (1920x1080@25.00, 48000,2)

File Edit	Tracks Window Help

Select the language of the added track in the opened window.

Subtitle track right click menu on the timeline:

ItemDescriptionChange captions layoutOpening a window for comparing subtitle tracks with languages.

Item	Description		
Revert captions	* Fix Me!		
Add Empty Clip	Adding an empty clip to the subtitle track.		
Show Captions Editor	Opening the subtitle editing window.		
Delete Caption Track	Deleting the selected subtitle track. When deleting, the request window will be displayed:		

## **Export of Editing List to Final Cut Pro7 interchange XML**

Starting from 2.0.62 version, News Cut provides the function of editing list export in the format «Final Cut Pro7 interchange XML» (EDL).

Timeline					ad X
N 250 10	1				+
<b>4</b> +	00:00	00:01:00:00	00:02:00:00	00:03:00:00	00:04:00:00
	<u> 035</u>	CLIP_1_DV			
휪글				CLIP_10_DV	
¶► Adei			444	CLIP_10_DV	
¶ ► Masio 1	444	CLIP_1_DV			
					<u>×</u>

### **Saving Editing List**

Select the item: Меню File→Export timeline→Export FCP7 XML Interchange…

Select a folder and name for the saved editing list.

When saving the editing list, News Cut is checking BRV copies availability (original materials). Archive files are automatically placed to the restoration queue.

- HiRes OK the number of BRV available in the online mode.
- HiRes OFFLINE the number of BRV unavailable at the moment.
- Scheduled restore the number of requests for restoration of BRV copies.

#### Import of Editing List on Example of Adobe Premiere Pro CS6
